## LETTER OF TRANSMITTAL

Hon. ELBERT D. THOMAS,
*Chairman, Senate Military Affairs Committee,*
*Washington, D. C.*

MY DEAR CHAIRMAN: I have the privilege of transmitting herewith the first part of the Nazi Party membership records listing Nazi Party members outside of Germany, which were made a part of your subcommittee's record on the elimination of German resources for war by Maj. Gen. John H. Hilldring, Director of the Civil Affairs Division of the War Department, at the hearing on March 6, 1946.

The material which I am transmitting herewith is but a fraction of the total list which has been made a part of the record, and which will be transmitted to you as it is transcribed from the microfilm form in which it was brought from Germany. The microfilm rolls contain actual photographs made by the War Department of the Nazi Party card files which were discovered by our Army in the United States zone of Germany.

I am appending below an excerpt from the subcommittee hearing of March 6 in which General Hilldring discussed these records:

General HILLDRING. There is one other matter which you have asked me to take up today. As you know, the Army discovered in the United States zone in Germany the membership records of the Nazi Party, and has taken them to Berlin for use by the four occupying powers in the administration of military government. Since the 20 tons of records were in a chaotic state when they were discovered, the job of putting them in order has taken a little time. As these records are reorganized, Army personnel is microfilming membership cards and related documents covering party memberships outside of Germany and Austria for transmittal to this country. The microfilms are being forwarded to the War Department as they are made and will continue to arrive until sometime in May, when we expect to have the last one filed.

At our request, Senator, the War Department has already furnished the subcommittee with the first two rolls of films. Today, I am delivering rolls 3, 4, and 5. At the request of the subcommittee, we are transmitting that portion of the material in these first five rolls which relates to the United States and Argentina. This work will be completed and forwarded to the committee in a few days. It takes a little time to transcribe this German script into legible English.

I wish to emphasize, however, that the original records were made by Germans and not by the Army; in other words, these are German records and not United States Army records, and that the War Department cannot vouch for their accuracy. We just report to you where we got them and what they are.

The CHAIRMAN. In other words, it is the home lodge reports; they had so many members in a certain place?

General HILLDRING. That's right. The home lodge says they are the members, and that is what these records are, sir. Also, since the job of going through the entire file in Berlin has not yet been completed, the microfilms received here thus far may not cover any country completely.

Finally, we have found it very difficult to read the microfilms with the German script, in which many of the entries of the party membership cards are made, and cannot be sure that our transcription of this material is accurate in all cases. We are doing our level best to make it accurate.

Digitized by Google

The CHAIRMAN. General, it is my belief that the people of the United States should be advised as to what Germany's records show. I believe it is educational for the American public and is a warning of what might take place in the future. For that reason, I am going to order that all these transcribed records be put in the subcommittee record as part of your testimony if you will permit.

General HILLDRING. I have no objection, sir.

The CHAIRMAN. It is so ordered.

Sincerely yours,

HARLEY M. KILGORE,
*Subcommittee Chairman.*
